CEILING AND WALL

I Pannelli per soffitto e pareti, sono realizzati in (XPS) polistirene espanso estruso. Danno un tocco decorativo alle pareti e soffitti.

Hanno tantissimi vantaggi:

- sono leggeri e facili da installare;
- possono essere verniciati con pittura all'acqua;
- sono adatti a vari tipi di superfici.

The ceiling and wall panels are made of (XPS) extruded expanded polystyrene. They give a decorative touch to interior walls and ceilings.

They have many advantages:

- *they are light and easy to install;*
- *they can be painted with water-based paint;*
- *they are suitable for various types of surfaces.*
